

IT'S WATER FILTRATION YOU CAN TRUST!

THE PURE SOLUTION

Our products polish water to premium quality so that water is sparkling and free of unwanted tastes and odors. You'll taste the difference in every sip and everything made with water will taste better, too.

THE CONVENIENT SOLUTION

Everpure systems are easily installed using common household tools. Our systems mount under your sink and are plumbed to a separate filter faucet. And cartridge replacement is easy, too – just like changing a light bulb.

THE SENSIBLE SOLUTION

Our filters reduce lead amounts in your water – below the Federal Action Level of 10 ppb – as well as parasitic protozoan cysts and other microscopic particles that may be in your water supply.

THE PRACTICAL SOLUTION

At only cents per liter, this system is less expensive per glass than bottled water or other drinking water systems and provides about a year's supply of water, depending on the size of your family and the amount of water you drink.

System Tested and Certified by NSF International against NSF/ANSI Standard 42 and 53 for the reduction of:

Standard 42 - Aesthetic Effects:

Chemical Reduction

- Taste and Odor
- Chlorine

Mechanical Filtration

- Particulate Reduction: Class I

Standard 53 - Health Effects:

Chemical Reduction

- Lead

Mechanical Filtration

- Cyst

EVERPURE CTS-H54 COUNTERTOP DRINKING WATER SYSTEM

HIGH TECHNOLOGY FILTRATION IN YOUR KITCHEN

CTS-H54 COUNTERTOP DRINKING WATER SYSTEM

The same commercial quality that makes Everpure the overwhelming choice for water filtration in restaurants is also available for homes. Everpure's exclusive precoat filtration technology combines Micro-Pure and a unique pleated filter membrane to reduce particles as small as 1/2 micron. This highly engineered design offers the largest filtering surface area, longer filter life and consistent performance.

Portable design
Ready to use
Premium quality

FEATURES

- ▶ The exclusive precoat technology combines Micro-Pure filtration media and a unique pleated filter membrane **to reduce particles as small as 1/2 micron**. This design offers the largest filtering surface area, a longer filter life and consistent performance
- ▶ Everpure systems reduce contaminants, yet **retain vital minerals found naturally in water**. So the water tastes crisp, clean and refreshing
- ▶ Adsorbs common earthy, moldy, fishy tastes, and odors
- ▶ Everpure's metal canister delivers commercial grade durability and quality
- ▶ Electronic LED flow indicator with visual & audio alarm

GENERAL INSTALLATION / MAINTENANCE REQUIREMENTS

- Unit dimensions: 16.8 cm diameter x 30 cm high
- Replacing cartridges: the flow indicator LED flashes RED every two seconds when 90% of the filter capacity is consumed (No audio alarm). When 98% of the filter is consumed there is an audio alarm every 2 seconds.

Take it anywhere
Plug it directly
Taste the difference

BENEFITS

- ▶ This Everpure countertop drinking water system gives **great tasting water** – all you want, on demand – for **cost that's far less than bottled water**
- ▶ **Portable Design – Take it anywhere!**
- ▶ No plumbing installation required – **Plug it direct to your faucet!**
- ▶ Great for your:
 - Apartment
 - Dorm room
 - Mobile homes, camping cars (plug and drink!)
 - Boat
- ▶ Convenient – **Comes ready to use**. Takes up less counter space than most coffee makers.
- ▶ **Premium Quality** – Taste the difference: everything made with water will taste better: coffee, tea, flavored water mix, juices, soups – even ice cubes.

TECHNICAL SPECIFICATIONS

- Flow rate controlled at 1.9 Lpm
- Temperature: 2-38°C (cold water use only)
- Pressure: 0.7-8.6 bar
- Capacity: 2.835 L (approximately **1 year of water supply**, depending on family size and the amount of water you drink)
- Battery life: 7-10 years

CONTAMINANT REDUCTION

The Everpure CTS-H54 Countertop Drinking Water System reduces the following contaminants and provides extra sediment-holding capacity

- Lead
- Limescale
- Cysts such as Giardia lamblia, Entamoeba histolytica and Cryptosporidium parvum
- Chlorine taste and odor
- Dirt and cloudiness*
- Mold and algae*
- Particulates (oxidized iron, manganese and sulfides)*

*As tested by Everpure, LLC
